

## Haydon's Bridge relaunches

Since re-opening 15 years ago as our village community library, "The Bridge" building on Church Street has served Haydon Bridge well.

After the COVID shutdown, a rethink has led to the internal layout being revamped to allow space for both full county library services and also new and different activities. Now the volunteers would like to share what has been done, what is on offer now and ask for your ideas about what could be delivered in the future. So we are hosting a Fun open event on Saturday 21 September, from 10 to 4, with something for everyone. There will be free childrens' craft activities and storytelling, a village history photo quiz, a cake stall, plant sales, advice from the Community Bank, demonstrations from the regular groups e.g. Knit and Natter, LEGO, and much more besides. Drop in for a free tea or coffee and find out what is on offer, it will certainly be much more than you think! All welcome.
